

A place to **Share Knowledge** and have better
Understanding of the environmental aspects

About GreenTIP

GRC GreenTIP (Technical Interactive Platform)

GreenTIP is an interactive platform developed by Grass Roots Research & Creation India (P) Limited to hand-hold with stakeholders in the field of environment for sustainable development. GRC India (P) Ltd. is a pioneer environmental consultancy organization working in the field of environment and EIA since 2006. GRC India has been providing optimal solutions for Environmental Clearances for Industrial and Infrastructural sectoral projects. We have a pool of experts for the entire range of functional areas, who can guide and provide the most satisfactory solutions in the environmental field.

For more information regarding GRC India, you can visit our website www.grc-india.com

The modus operandi for creating the GreenTIP platform is to make people aware of environmental issues and their probable and possible solutions which they try and find out at various locations...

How GreenTIP Works?

GreenTIP platform is a web-based portal developed for those professionals who are trying to find environmental solutions and this portal provides the best solutions with concrete answers.

-  A new user will initially have to visit this website grcgreentip.com and sign up as a user before posting any query
-  Once logged in as a user, one can ask questions related to Construction, Real Estate, Environmental Clearance, NOCs, Mining, Envio-legal matters, and similar sectoral queries by selecting the category from the drop-down list
-  Once a query is posted, it will be notified on our portal and it will be assigned to our experts to provide timely answer and solution to it
-  For posting any query, click on "Post Your Query" box at the About Us page, log in as a user and then select the category and type your comments in the query box.
